

FOSS4G-Europe 2018

“Remember how we started”

Logo Design Contest - Call for Submissions -

FOSS4G is the acronym for Free and Open Source Software for Geospatial. It is the annual recurring global event hosted by OSGeo since its inception in 2006. FOSS4G-Europe aims to bring together a wide range of profiles from companies, research institutes and public organizations, who develop or/and use Free and Open Source Software for Geospatial. Although the event is aimed at the FOSS4G community in Europe, we welcome people from all over the world. This year, the event will take place in the Portuguese town of Guimarães, not far from the Spanish border.

The conference committee is looking for a visual identity which can capture the strong character of the city, a unique blend of historic and modern. If you think you can design a creative, attractive, innovative and professional logo, we welcome your proposal. Please submit your designs to: foss4g-europe@osgeopt.pt

About the Logo and Design

- The design must include elements of the OSGeo/ FOSS4G “ribbon” in suitable colours.

- The logo **must** reflect the theme of the conference.
- While indicating the **relevance to GIS domain**, the logo can also reflect the **local identity**.
- It must **not** resemble other conference logos, anywhere in the world.
- It should not include any copyrighted materials.
- The design should be submitted in a vector graphic format (e.g.: SVG) with source file and a high resolution sample in PNG.
